

PIPE FLASHING

MASTERFLASH®

Available for pipe sizes from 1/4" to 26" diameter. Master Flash is easy to install, the square flange design adapts to any roofing material and the aluminum base bends to form a perfect seal with any contour, surface irregularities or roof pitch.

Master Flash® was used to create a new engineering standard for profiled roofing by the International Association of Plumbing and Mechanical Officials.

TEMPERATURE RANGE

EPDM..... -65 - +200 Degrees Fahrenheit (Type B Gas Vent)
 SILICONE.. -100 - +450 Degrees Fahrenheit (Type A Gas Vent)
